

## Awareness campaign on Corona Virus - a CSR initiative

**Team NSSPL organized an awareness campaign on last day under CSR initiative to educate a cross section of people in Bongaon sub-division on the disease and its possible ways of getting transmitted to a healthy human. Distribution of masks of N-90 grade with informative handbills, audio alerts and van campaign were the various modes adopted for the purpose. The people were advised not to get panicked rather adapt to precautionary measures and immediate medical assistance in emergence of suspicion of such symptoms like chronic cough, breathing trouble, etc. Team is also planning to replicate such initiative in other areas.**

*Thank you*
