

The World Earth Day

With an intention to convey the appeal for "Conservation of Earth for future generations" on The World Earth Day, Team NSSPL organized engagement activities for the pupils of Bhaluka Primary School at Amdanga in 24 Parganas (N). Different groups have been engaged in destroying used plastic items and plantation of saplings. One group was engaged in distribution of literatures on the topic to all other students & teachers. Videos on the ways & importance of conservation were screened. Sweets, chocolates & gifts were distributed. The pupils acknowledged to learn many a point from today's event.

Thank you!
